SKIN ANTIOXIDANT

BAIN & CO

ContourMe

Instant Results, Safe & Effective Lipolysis Solution

ContourMe is a PPC Solution with the new highly concentrated formula

Combined with Sodium Deoxycholate, L-carnitine and Vitamin B12, which further accelerates lipolysis, it promotes the metabolism of fat cells and dissolves them safely and effectively.

ContourMe has Distinct Differences from the existing contour ampoules. It contains cell growth factors, promotion of collagen, and skin antioxidants that help prevent wrinkles

ContourMe

WE ARE DIFFERENT!

INSTANT RESULT WITH LIPOLYSIS ACCELERATOR

Effective ingredients to promote the dissolution of fat cells,
Energy metabolism and activation L-Carnitine, Vitamin B2, B3, B12

HIGHLY EFFECTIVE LIPOLYSIS

Nanotechnology for High Absorption Phosphatidylcholine
(PPC) (Purity 99%), Sodium Deoxycholate (Purity 99%)

5 CELL GROWTH FACTORS & ANTIOXIDANT VITAMINS

Contains cell growth factors, collagen promotion, and skin antioxidants that help to prevent wrinkles and maintain elasticity in the process of lipolysis EGF, FGF, IGF, SOD, TRX, Acetyl Hexapeptide-8,...

EFFECTIVE LIPOLYSIS
Phosphatidylcholine(PPC) 1,000mg Sodium Deoxycholate (Purity 99%)

SKIN ANTIOXIDANT
Vitamin C, B2, B3, Nicotinoyl Tripeptied-1, Adenosine

COLLAGEN & ELASTIN REGENERATION (GROWTH FACTORS)
EGF, FGF, IGF (PPM 1000), SOD, TRX

LIPOLYSIS ACCELERATOR
L-Carnitine, Vitamin B2, B3, B12

INCREASING ELASTICITY & REMOVING WRINKLES
Acetyl Hexapeptide-8, Palmitoyl Pentapeptide-4,
Palmitoyl Tetrapeptide-7, Dipeptide diaminobutyroyl benzylamide

SOOTHING & ANTIBACTERIAL
Naturotics Plus, MultiEx BSASM Plus Adenosine,
Arginine, Arbutin

EFFECTIVE & FAST LIPOLYSIS

Phosphatidylcholine(PPC), Sodium Deoxycholate

Sodium Deoxycholate destroys the membrane of fat cells,
and Phosphatidylcholine (PPC) penetrates and dissolves fat cells.

L-Carnitine, Vitamin B2, B3, B12

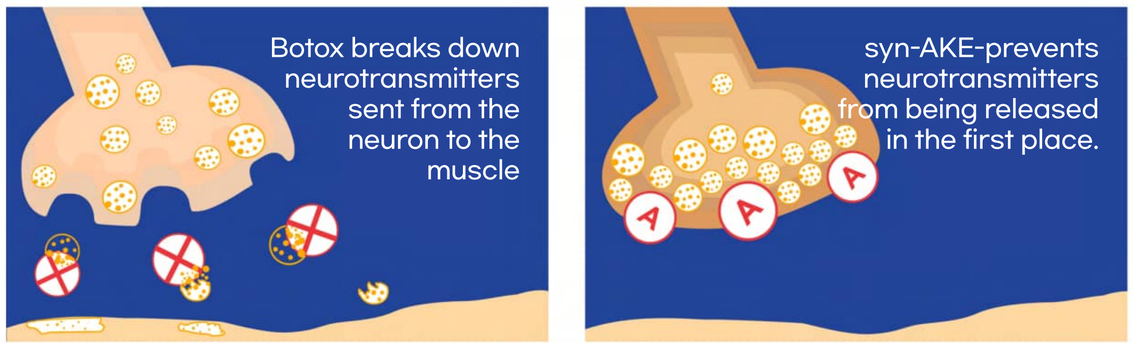

L-Carnitine accelerates the fat-dissolving process and expels
the dissolved fat cells out of the body.
B2, B3, and B12 help to burn fat by activating the energy of
fat metabolism, thereby helping to remove local fat

WRINKLE REMOVAL

Dipeptide Diaminobutyroyl Benzylamide (Syn-AKE),Acetyl Hexapeptide-8, Nicotinoyl Tripeptide-1, Palmitoyl Pentapeptide-4, Palmitoyl Tetrapeptide-7

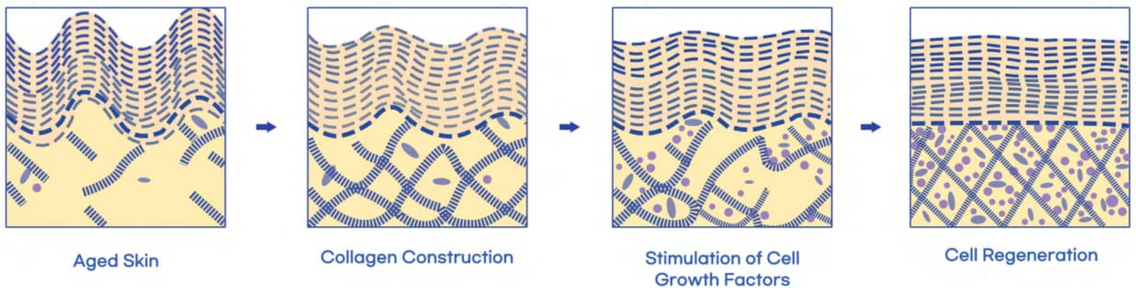

Dipeptide diaminobutyroyl benzylamide & Acetyl Hexapeptide-8 is protein from amino acid in vegetables, which is excellent for removing wrinkles and tightening skin. It helps reduce wrinkles during the lipolysis process. It is also the non-irritating and nontoxic component. Furthermore, as a substitution of Botox, you can expect safe and fast absorption with less side effects.

COLLAGEN & ELASTIN REGENERATION

EGF, FGF, IGF (1,000 PPM), SOD, TRX, Palmitoyl Pentapeptide-4, Palmitoyl Tetrapeptide-7

EGF(Epidermal Growth Factor), FGF(Fibroblast Growth Factor) and IGF(Insulin-like Growth Factor) ingredient accelerates the production of collagen and elastin cell in the skin. Therefore, it reduces wrinkles and improves elasticity by keeping skin healthy. The new cell formation removes sediment in the skin, resulting in whitening improvement.

WHO WE RECOMMEND

People with **folded and sagging skin**

People with a lot of fat **under armpits or on bra line**

People who want to have a **great body line**

People who are worried about **loss of skin elasticity**

WHERE TO APPLY

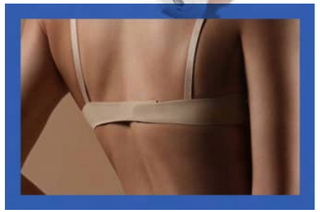

Face V-line

Upper Arms

Around Abdomen

Bra Line

Love Handle, Waist

Hip

ContourMe

HOW TO USE & CAUTION

Shake vials well to mix the deposited particles on the bottom.

In case of abdomen/waist, apply 0.05~0.2cc on a spot
into the fat layer and move to a centimeter distant.

By doing so, you should use PPC up to 1 vial
at a treatment depending on obesity degree and
you are recommended to repeat this treatment
2~3 times at 15 days interval (Once every 15 days),
This whole process will end up with reduction of 2~3 inches!

The amount should be adjusted according to the obesity
and fat layer thickness.

1 point recommended usage

Fat around the Upper Arm : 0.01 ~ 0.05ml or less
Fat around Abdomen/waist (thicker fat layer) : 0.05ml ~ 0.2ml or less
Fat around Hip : 0.05ml ~ 0.15ml or less

When injected into the muscle layer, not the fat layer, pain and fever may occur,
and the fat layer must be penetrated in the correct amount.

Caution! The main component of PPC is extracted from soybeans. Do not use it for patients with soybeans allergy.

Caution! As PPC solution could also dissolve muscles and nerves, you should be careful with a subcutaneous injection and must not use it on the parts below knees where nerves are densely concentrated!

Since PPC treatment consumes a vast quantity of water, patients are required to drink as much water after treatment Over 1~2 liters/day of lukewarm water and avoid violent exercises and take sufficient rests.

Caution! After the procedure, avoid friction in the treatment area, do light exercise,
refrain from drinking alcohol, refrain from having high calories foods.

Caution! Do not use for people with atopic dermatitis, dermatitis, heart disease, diabetes, cancer,
stroke or arteriosclerosis, those with underlying medical conditions, or pregnant women.

Caution! it is not recommended to do massage or irritating procedures on the skin after infusion,
wearing tight clothes, such as slim jeans, may cause blisters or bruises.

Use a proper dose on the desired area.
Do not mix with other solutions.
Do not massage the treatment area.
Do not use on skin sensitive to red spots, itchiness or irritation.
Do not apply on the wounded, eczema, and dermatitis part.
Clean it immediately if the product gets in your eyes.
Do not damage the container. It may cause injury.

ContourMe

HOW TO STORE

Keep it out of direct sunlight.

Keep in a shady place.

Store below 30 degrees Celsius

Opened products are refrigerated at 5 to 10 degrees.
Opened products are used within 7 days.
